

WIND GENERATOR

A VERY GREEN SCHOOL PROJECT

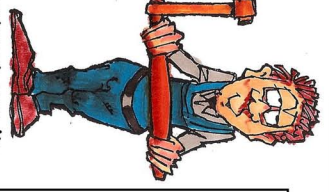

GLUE TO TOP OF TOWER

(FREE TO ALL)

BREAKING NEWS!!

Unemployment dropped by a staggering 17%!
The US Labor Department says it was due to the recruitment program for calm day WINDMILL TURNERS

Some European countries have had Wind Turbines in operation for over 20 years. Wind Energy production costs in Europe are now competing with coal fired power stations. Since 1990 the Wind Energy Industry has been the fastest growing sector of the power generation industry and continues to be so.

Wind Turbines have a designed working life of 20 to 25 years and require very little maintenance during this time.

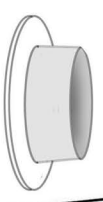

It's a start

CARTOONS THANKS TO DEREK CARTER

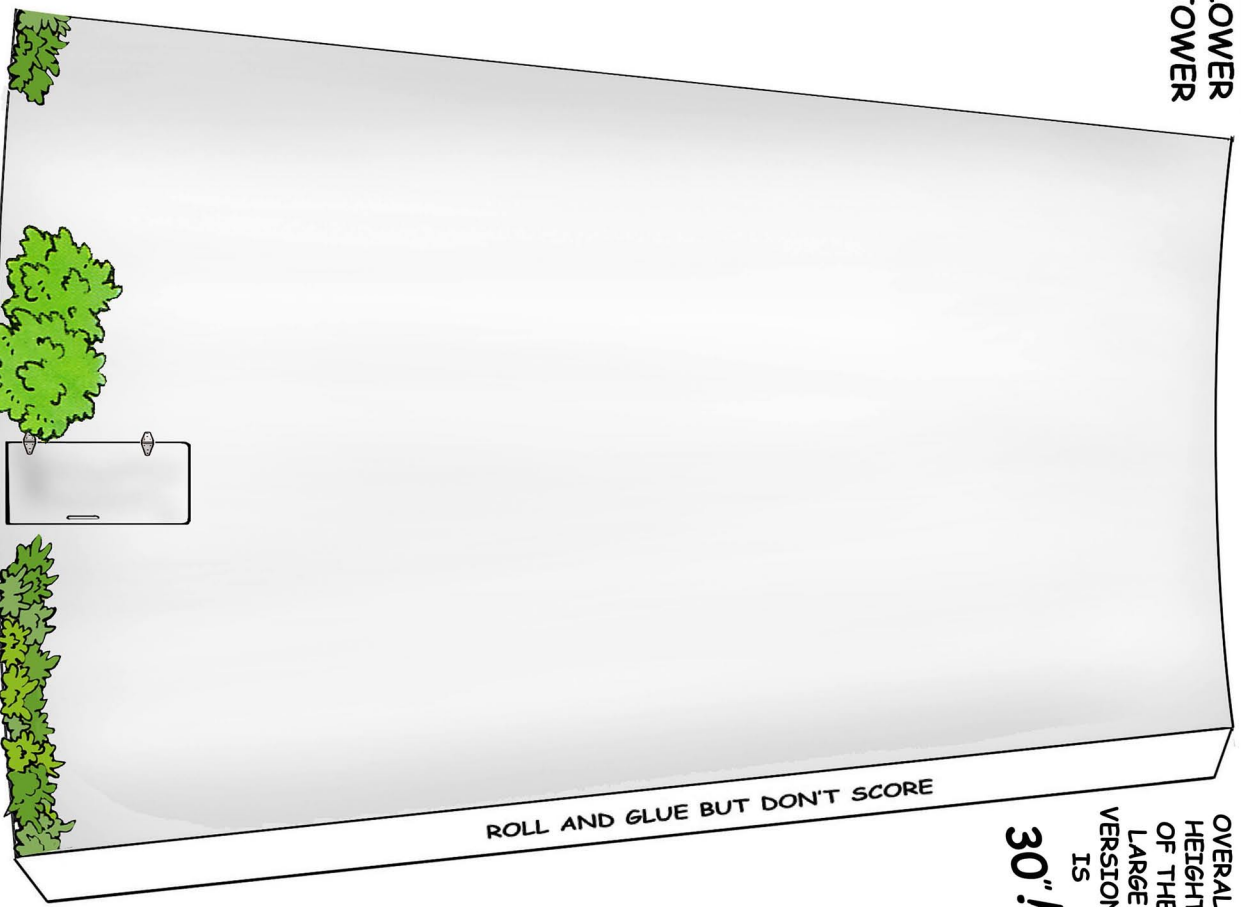

(THE TOWER SLIDES OVER THIS PIECE) GLUE TO A GOOD SOLID OBJECT LIKE AN OVERTURNED PLATE OR CD JEWEL CASE

BASE

GLUE

LOWER TOWER

ROLL AND GLUE BUT DON'T SCORE

OVERALL HEIGHT OF THE LARGE VERSION IS 30"!
